

Laura Branch, Director of Data Analytics, Wavicle Data Solutions

Laura is the Director of Data Analytics where she leads Wavicle's Advanced Analytics and AI practice. Laura has over a decade of experience leading data science, machine learning, and artificial intelligence programs across a variety of large and small corporations, as well as for the Federal Government. She has overseen analytic projects and programs in the areas of cyber security, major systems acquisition, business intelligence, IT, health, retail, oil and gas, and finance. Before joining Wavicle, Laura spent 12 years at Booz Allen Hamilton as a director of data science, and before that she spent 4 years doing finance work at Wells Fargo. Most recently, Laura has been working with one of the largest oil and gas companies in the country to redesign the way that their executive leadership team receives and uses data to make decisions.

She has degrees in Theoretical Mathematics and Applied Statistics, as well as multiple certifications, including Quantum Computing and Quantum Algorithm Development.

Laura lives just outside of Washington, DC in Virginia with her husband and two young sons. When she is not working, she is an artist who loves to paint, an aspiring author, and an avid gardener.
